

EARLY LEARNING PROGRAMS

The Ephrata Area School District is dedicated to the success of children beginning at their earliest stages. With funding support from the Ephrata Area Education Foundation, the District offers free early learning programs for parents and children, from babies to Kindergarten.

- “Plant the Seed of Learning” began as an Ephrata Area School District initiative and has grown to include five additional school districts. The program offers parents/guardians and their children, birth to age two, helpful tips on how to educate children in a playful environment. Free sessions are held at the Wellspan Ephrata Community Hospital Health Pavilion A. Pre-registration is required.
- The District also provides “Parent 2 Parent” (P2P) representatives who deliver free learning kits to homes with children who are ages three and four. P2P representatives also set up community playground dates and early learning activities and are a resource for parent questions.

“We want families to know that we are here to provide a variety of resources and a place to turn for answers,” said David Trout, District Early Childhood Coordinator.
